

Sceptalight™ LED

Sceptalight LED Heavy Duty Light Fixture now certified for hazardous use

Sceptalight LED Heavy Duty Light Fixtures are now certified for use in hazardous environments. Constructed of strong and durable materials, the polycarbonate globe is resistant to impact and to UV light degradation. The specially designed aluminum heat sink dissipates the heat generated by the LEDs to the exterior environment ensuring long-life and optimal performance in both hot and cold environments. The LED heavy duty light fixture is certified for use in indoor, outdoor, wet location, wash down, corrosive and hazardous environments.

Hazardous Use Classifications:

Class I, Div 2 Groups A, B, C & D

Class II, Div 2 Groups F & G

Features and Benefits:

- ✓ Durable design rated for hazardous use
- ✓ Lumen output of 1575 lm
- ✓ 50,000+ hours of life
- ✓ 15W LED output that is comparable to a 125W incandescent
- ✓ NEMA 4X and IP66 rated.
- ✓ Dimmable down to 5%
- ✓ 5-year limited warranty
- ✓ CSA C22.2 250.0, CSA C22.2 250.13, UL 1598, UL 1598C, UL 8750
