KRALOY®

Application

KRALOY PVC enclosures are designed for use as electrical junction boxes, terminal wiring boxes, instrument housings, and electrical control enclosures for indoor and outdoor use. Protection is provided from dust, oil, dirt and water, as well as a wide range of corrosive atmospheres.

Features

- » Not foamed or filled
- » Self extinguishing PVC
- » Standard electrical grey
- » Won't craze
- » Easily drilled with hole saw
- » Accommodates all types of conduit
- » Brass screws and inserts

Options

- » Hinged lids

Note: Fabricated Junction Boxes are available on request, orders are **non cancelable** and **non returnable**. **Boxes are not UL Listed.** Other sizes are available upon request.

Technical Data
(Wall & Ceiling Boxes)

Bracket mounts on wood studs and the flat side of metal studs.

The 1 1/2" deep, 4" square box is perfect for use on open or closed sides of metal studs. The box has a pair of 1" support tabs molded on the back that provide excellent rigidity on 2 1/2" metal studs. Box has twelve 1/2" knockouts to permit conduit entry from sides and bottom.

2 1/8" deep boxes accept larger sizes of conduit. No. 89510 has 1/2" & 3/4" TKO's. No. 89511, shown, has both 1/2" & 3/4" and 3/4" & 1" TKO's allowing all three sizes of conduit in one box. Mounts on wood or metal studs. Short tabs molded on the back of the box provide excellent rigidity when box is mounted on the open side of a 2 1/2" metal stud.

Switch box has tabs on side of box that rest against inside of drywall to provide support when pulling out appliance plugs. When mounted on a 2 1/2" metal stud, back of box rests firmly against opposite wall for greater rigidity. Box has 1/2" & 3/4" TKO's in each end and one side.

Low voltage partition is available for use with KWIKON 4" square boxes and
2-device covers. Partition is ready for 2 1/2" deep box and scored on the bottom for 1 1/2" deep box. Score on the top allows partition to be used with 1/2" or 5/8" raised covers.

The shallow 4" square box may be adapted for use on the open side of a 3 5/8" metal stud. An extension slips over one or both molded tabs to provide a very rigid installation.
